

YC S2026: SpringBrand Outreach Map

268 companies in 7 categories, with what SpringBrand can do for each. SpringBrand gives an AI agent specialized GTM tools across six scenarios (Ads and SEO, Social Media, Creative Content, E-commerce, Sales and CRM, Customer Support) through one connection, paid per call, with no subscription.

Category	Who they are	Key SpringBrand scenarios	High	Med	Low	Total
1. GTM & growth builders	Companies whose product itself does sales, marketing or research work.	Sales and CRM, Ads and SEO, Social Media, Creative Content	8	1	0	9
2. AI agent infra & devtools	Tools for developers and AI agents: coding agents, evals, sandboxes, memory, voice, security.	Social Media, Ads and SEO, Sales and CRM, Creative Content	32	23	0	55
3. B2B / enterprise AI SaaS	Sales-led AI software for IT, finance, operations, compliance, HR, healthcare IT and insurance.	Sales and CRM, Ads and SEO, Social Media, Customer Support	12	43	2	57
4. Vertical AI for SMBs & local operators	AI for auto shops, hotels, restaurants, contractors, brokerages, CPA and law firms, retailers and distributors.	Sales and CRM, Ads and SEO, E-commerce, Creative Content / Social, Customer Support	17	4	0	21
5. AI-native service firms	AI-first firms replacing traditional ones: law, accounting, insurance, clinics, home care, freight, collections.	Ads and SEO, Sales and CRM, Creative Content, Customer Support	7	12	1	20
6. Consumer, health & creator apps	Consumer apps, DTC health and wellness, games, social, media and content.	Social Media, Creative Content, E-commerce, Customer Support, Ads and SEO	16	8	0	24
7. Deep tech, hardware, defense & bio	Robotics, chips, energy, space, defense, biotech and research labs.	Sales and CRM, Ads and SEO, Creative Content	0	1	75	76
Needs review	No description in the source file.	–	0	0	6	6

How to read the company tables. **Fit** = how closely SpringBrand matches the company's go-to-market today (**High** / **Medium** / **Low**). **SpringBrand play** = the lead scenario for that company's email, with a second scenario in brackets. ★ = also a potential capability partner for the SpringBrand marketplace. Founder contacts are in the companion spreadsheet.

1. GTM & growth builders

Companies whose product itself does sales, marketing or research work. · **9 companies** (8 high fit)

Why they need SpringBrand. They need the same data SpringBrand provides: traffic, leads, social and content. They can use it to grow their own pipeline, or call it inside their product, paying per call instead of signing contracts with each data vendor.

What SpringBrand can do for them

- **Sales and CRM:** Find companies and decision-makers for their own pipeline, and draft follow-ups for stalled deals.
- **Ads and SEO:** Find competitor keywords they miss, and compare cost per lead across Google and Meta.
- **Social Media:** Pull trend and creator data (TikTok, Instagram, X, RedNote) to power features like influencer matching.
- **Creative Content:** Generate copy, images, video and voiceover on demand inside their product.
- **Pay per call, no subscription:** they use each tool only when a task runs, one login, inside the AI agent they already use.

Partner pitch: "Build on SpringBrand. Every data source your product needs behind one connection, billed per call."

Companies

Company	What they do	Fit	SpringBrand play for this company
Chromie chromie.dev	find, qualify, & win contracts with AI	High	Sales and CRM: companies and decision-makers that fit, added to the CRM, stalled-deal follow-ups (+ Ads and SEO)
Click ★ www.useclick.ai	Research services for ChatGPT and Claude	High	Ads and SEO: competitor keyword gaps and where rivals get their traffic (+ Social Media)
Grocalo grocalo.com	AI brain that runs content for creators	High	Creative Content: UGC ad concepts, a 15-second video, voiceover (+ Social Media)
LemonLime www.lemonlime.ai	Fully automated GTM for small business	High	Sales and CRM: companies and decision-makers that fit, added to the CRM, stalled-deal follow-ups (+ Ads and SEO)
Nex nex.ai	Claude Cowork for high-volume workflows, starting with GTM	High	Sales and CRM: companies and decision-makers that fit, added to the CRM, stalled-deal follow-ups (+ Social Media)
Osmaura osmaura.com	AI growth engine for law firms.	High	Ads and SEO: competitor keyword gaps and where rivals get their traffic (+ Creative Content)
Palisade (sales agents) palisade.run	AI sales agents that run your marketplace	High	Sales and CRM: companies and decision-makers that fit, added to the CRM, stalled-deal follow-ups (+ E-commerce)
TryNearby trynearby.com	Local creators for local businesses	High	Social Media: listening on X, Reddit and TikTok, trends turned into posts, creators (+ Creative Content)
Pluto talentpluto.com	AI voice agent that helps professionals get discovered	Medium	Sales and CRM: companies and decision-makers that fit, added to the CRM, stalled-deal follow-ups (+ Social Media)

2. AI agent infra & devtools

Tools for developers and AI agents: coding agents, evals, sandboxes, memory, voice, security. · **55 companies** (32 high fit)

Why they need SpringBrand. Their buyers are developers, who are won on X, Reddit, YouTube and Hacker News-style threads. SpringBrand runs inside the Claude Code, Cursor or Codex session they already use, so GTM research fits their workflow.

What SpringBrand can do for them

- **Social Media:** Monitor X, Reddit and YouTube for developers discussing their category or competitors, find their best-performing launch posts, and turn the week's trends into posts for X and LinkedIn.
- **Ads and SEO:** Find competitor keywords their docs and landing pages miss, and see where rival devtools get their traffic.
- **Sales and CRM:** Find AI teams and engineering leaders who match their ideal customer, and add them to the CRM.
- **Creative Content:** Turn a demo into a launch video with voiceover.
- **Pay per call, no subscription:** they use each tool only when a task runs, one login, inside the AI agent they already use.

Hook: "Your competitors' traffic sources and the Reddit threads about your category, pulled from inside your coding agent. Pay per call." ★
companies are also marketplace partner candidates.

Companies

Company	What they do	Fit	SpringBrand play for this company

3. B2B / enterprise AI SaaS

Sales-led AI software for IT, finance, operations, compliance, HR, healthcare IT and insurance. · **57 companies** (12 high fit)

Why they need SpringBrand. Right after Demo Day they need pipeline: target accounts, the right decision-makers and sharp competitor positioning. Most can't yet justify an Apollo, Semrush and Similarweb subscription each.

What SpringBrand can do for them

- **Sales and CRM:** Find companies and decision-makers that fit their ideal customer, add inbox leads to HubSpot or Salesforce, find deals stuck for two weeks, and draft follow-ups.
- **Ads and SEO:** Find competitor keyword gaps, and compare cost per lead on Google vs. Meta before scaling paid ads.
- **Social Media:** Turn industry trends into LinkedIn and X thought-leadership posts.
- **Customer Support:** Summarize feedback and complaints from pilot customers each week.
- **Pay per call, no subscription:** they use each tool only when a task runs, one login, inside the AI agent they already use.

Hook: "50 companies that match your ideal customer, with the right contacts, already in your CRM. You pay only for what you run."

Companies

4. Vertical AI for SMBs & local operators

AI for auto shops, hotels, restaurants, contractors, brokerages, CPA and law firms, retailers and distributors. · **21 companies** (17 high fit)

Why they need SpringBrand. They sell into thousands of small businesses. Wins come from large prospect lists, local search visibility and short, visual content that operators actually watch.

What SpringBrand can do for them

- **Sales and CRM:** List every business of their type in a target metro with owner contacts, add them to the CRM, and follow up on stalled deals.
- **Ads and SEO:** Find local and industry keywords, compare cost per lead on Google vs. Meta, and pause keywords spending with no leads.
- **E-commerce:** For retail and distribution tools (Asteria, Pango, Bizmark, Whitespace): pricing vs. competitors and conversion drops on Shopify, Amazon and TikTok Shop.
- **Creative Content / Social:** 15-second demo videos and Facebook or Instagram posts aimed at operators.
- **Customer Support:** Handle customer questions across Gmail and WhatsApp Business.
- **Pay per call, no subscription:** they use each tool only when a task runs, one login, inside the AI agent they already use.

Hook: "Every [auto shop / hotel / brokerage] in [metro], with owner contacts and a first outreach draft, in one request."

5. AI-native service firms

AI-first firms replacing traditional ones: law, accounting, insurance, clinics, home care, freight, collections. · **20 companies** (7 high fit)

Why they need SpringBrand. They compete directly with incumbent firms for clients, so inbound demand (search and ads) plus steady content decides growth. Consumer-facing firms also field many client questions.

What SpringBrand can do for them

- **Ads and SEO:** See where incumbent firms get their traffic, find keywords they can win, compare cost per lead on Google vs. Meta, and pause keywords that bring no leads.
- **Sales and CRM:** Build lead lists (US importers for Donkey, shippers for Peer, SMBs for Billow) and follow up on stalled deals.
- **Creative Content:** Explainer videos and voiceovers that make an AI-native firm feel trustworthy.
- **Customer Support:** Find unanswered client and intake questions, draft common replies, and summarize weekly complaints (law, clinics, home care).
- **Pay per call, no subscription:** they use each tool only when a task runs, one login, inside the AI agent they already use.

Hook: "See exactly which keywords bring the big firms their clients, and which ones you can take."

Companies

Company	What they do	Fit	SpringBrand play for this company
Billow AI Labs thebillow.ai	AI-native Accounting Firm to Replace the Big-4	High	Ads and SEO: competitor keyword gaps and where rivals get their traffic (+ Sales and CRM)

6. Consumer, health & creator apps

Consumer apps, DTC health and wellness, games, social, media and content. · **24 companies** (16 high fit)

Why they need SpringBrand. Growth is social and visual: creators, trends and a steady stream of short-form content. DTC products also need e-commerce basics.

What SpringBrand can do for them

- **Social Media:** Find creators with 20K–100K followers in their category, show their best posts from the last 30 days, and turn trends into posts (TikTok, Instagram, YouTube, RedNote).
- **Creative Content:** Five UGC video ad concepts, a 15-second video ad from a product photo, and voiceover (e.g. Audora, MOCHI.TV).
- **E-commerce:** For DTC products (Gutgutgoose, Lumeria, RonanRx): pricing vs. competitors and descriptions for new products.
- **Customer Support:** Triage DMs and inbox, and summarize user complaints each week.
- **Ads and SEO:** Compare cost per install or lead on Meta vs. Google.
- **Pay per call, no subscription:** they use each tool only when a task runs, one login, inside the AI agent they already use.

Hook: "20 creators already talking about your category, plus five UGC ad concepts ready to test, without a monthly plan."

Companies

Company	What they do	Fit	SpringBrand play for this company
Audora audora.art	audiobooks with unique voices per character	High	Creative Content: UGC ad concepts, a 15-second video, voiceover (+ Social Media)
Gutgutgoose gutgutgoose.com	Personalized probiotics, guaranteed to colonize.	High	E-commerce: pricing vs. three competitors, conversion drops, product copy (+ Social Media)
Illume Labs www.illumelabs.ai	24/7 Personal Health & Longevity Companion	High	Social Media: listening on X, Reddit and TikTok, trends turned into posts, creators (+ Customer Support)

Paperboy Products, Inc. paperboy.com	Agent that learns from your computer activities	Medium	Social Media: listening on X, Reddit and TikTok, trends turned into posts, creators (+ Creative Content)

7. Deep tech, hardware, defense & bio

Robotics, chips, energy, space, defense, biotech and research labs. · **76 companies** (0 high fit)

Why they need SpringBrand. They have few, specialized buyers (OEMs, defense primes, pharma, utilities) and don't need GTM tools often, which is where pay per call beats any subscription.

What SpringBrand can do for them

- **Sales and CRM:** Find specific buyer organizations and decision-makers (procurement, R&D;, program leads).
- **Ads and SEO:** Occasional competitor and market research.
- **Creative Content:** Demo videos and voiceover for launches, fundraising and recruiting.
- **Pay per call, no subscription:** they use each tool only when a task runs, one login, inside the AI agent they already use.

Hook: "The research you'd need a subscription for twice a year, run once, paid once." Mostly low priority: one light touch.
